

**PRODUCT QUANTITY ESTIMATOR**

- For the wall base course, choose the Artisana<sup>®</sup> block set or the Torpedo<sup>™</sup> base block\*. Use wall length to determine number of base blocks needed.
- Combine wall length and exposed wall height to determine number of wall blocks needed. The Artisana<sup>®</sup> retaining wall system can be used to build gravity walls up to 3 feet, including buried base course, but excluding the cap.\*\* Installation instructions and estimating are based on using sets.
- Add double-sided cap block quantities.

	Buried Base Blocks	Exposed Wall Block Set = 2 Finished SF	Cap Blocks
<b>System Blocks</b>	 Set of Artisana <sup>®</sup> retaining wall blocks or  Torpedo <sup>™</sup> base block* 4" x 15 <sup>3</sup> / <sub>4</sub> " x 11"	 The 6-inch-high block set consists of two 6" x 16" blocks and one each of the 6" x 10" and 6" x 6" blocks.	 Double-Sided 3" x 8"/7" x 13 <sup>1</sup> / <sub>2</sub> "  Cap End 3" x 8" x 13 <sup>1</sup> / <sub>2</sub> "

**1. BASE BLOCK QUANTITIES**

		Wall Length									
		5'	10'	15'	20'	25'	30'	35'	40'	45'	50'
Artisana <sup>®</sup> 6" wall blocks	<b>Number of Sets</b>	2	3	4	5	7	8	9	10	12	13
Torpedo <sup>™</sup> base block*	<b>Number of Blocks</b>	4	8	12	16	20	23	27	31	35	39

**2. EXPOSED WALL BLOCK QUANTITIES**

Exposed Wall Height		Wall Length									
		5'	10'	15'	20'	25'	30'	35'	40'	45'	50'
1'0"	<b>Number of Sets</b>	3	5	8	11	13	15	18	20	23	25
1'6"		4	8	12	15	19	23	27	30	34	38
2'0"		6	10	15	20	25	30	35	40	45	50
2'6"		7	13	19	25	32	38	44	50	57	63

**3. DOUBLE-SIDED CAP BLOCK QUANTITIES** (exclude a cap if ending with a cap end)

Wall Type		Wall Length									
		5'	10'	15'	20'	25'	30'	35'	40'	45'	50'
Straight	<b>Number of Blocks</b>	9	17	25	33	41	49	57	65	73	81
Curved		10	19	28	37	46	54	63	72	81	90

\*The Torpedo<sup>™</sup> base block is available in select markets, and can be used for retaining walls featuring the Anchor rear-lip design up to the retaining wall system's gravity wall height.

\*\*This height assumes level backfill and clean, compacted sand or gravel and no surcharge. Taller walls can be built with the system blocks as the buried base course and geosynthetic reinforcement, or with the Anchorplex<sup>™</sup> retaining wall system, when designed by a qualified engineer.
